

Patterning Mats

Edited by Karen Sevaly

Patterning Sequence! Learning visual discrimination and logic with manipulatives. 105 foam manipulative shape pieces utilized by the child to match and complete the sequence on the 10 two sided learning mats. Two different challenges placed on each side of every mat. Teaching guide with extension activities included. Helps promote these important developmental skills: * recognizing simple patterns* describing, extending, and explaining the next element in a simple, repeating pattern (problem solving and prediction)* sort and organize shapes* identifying and describing 5 geometric shapes (square, circle, star, triangle and rectangle) For use with Grades PreK-1.
