

Paul Pelliot (1878-1945) : His Life and Works: A Bibliography

Hartmut Walravens

Pelliot has had a tremendous impact on the development of East and Central Asian Studies through his command of the respective languages, his field work in Sinkiang, his collections, and his extensive and authoritative publications. Yet no comprehensive primary bibliography has been previously produced. Because his writing tends to straddle genre, Walravens arranges the 866 works chronologically. The few titles not actually seen are marked as such. The name and title indexes are comprehensive, but the subject index is a supplementary register of selected keywords. Annotation c.
