MS Steph Bennion, Steph Bennion

On the forbidding planet of Falsafah, archaeologists are on the verge of a discovery that will shake the five systems to the core. Ravana OBrien, snatched from her friends for reasons unknown, finds herself on another wild adventure, this time in the company of two alien greys, a cake-obsessed secret agent and a mysterious little orphan boy at the centre of something very big indeed. Their journey across the deadly dry deserts of Falsafah soon becomes a struggle against homicidal giant spiders, hostile machines and a psychotic nurse, not to mention an omniscient god-like watcher who is maybe also a cat. The disturbing new leaders of the Dhusarian Church and their cyberclone monks are preparing to meet their masters and saviours. But nobody believes in prophecies anymore, do they?
