Unknown Author

Excerpt from Peabody Museum, Vol. 4: American Archaeology and Ethnology Harvard University Papers Since the first edition of this pamphlet appeared in the year 1897, investigation in this department of science has made such marked progress, notwithstanding the slight amount of material, that a revision has now become desirable. It can be readily understood, that a new science, an investigation on virgin soil, such as the Maya study is, makes more rapid progress and develops more quickly than one pertaining to some old, much explored territory.
