

Pearson Science New South Wales 7 Student Book with Reader+

Greg Rickard

This Combo Pack contains the Student Book and access to Reader+ for Pearson Science New South Wales 7. When you purchase this product, you will receive a printed card with an access code inside. Reader+ gives you access to the eBook version of your Student Book as well as bonus multimedia assets. It's built to work online and offline, making content easily available anytime, anywhere, in every school. It works on PC and Mac, Android and iOS. Learners can quickly navigate through their eBooks, read them, take notes and save bookmarks. Reader+ integrates multimedia (audio/video) and interactive activities that enhance and extend the reading experience. **Note: when you order any Student Book that includes access to the eBook, the access code may be referred to as eBook 3.0 instead of Reader+. If you activate this code now you will receive access to eBook 3.0 for the remainder of 2017. From January 2018 your account will be switched over to the corresponding Reader+ product. Student Book The Pearson Science New South Wales 7 Student Book has been developed from the ground up with scientific literacy and accessibility at its core. Pearson Science New South Wales not only saves you time but is the only series that really engages your students. The engaging design, literacy focus, unambiguous features and clear, easy-to-understand language make the student book an invaluable resource for all learning types and abilities. From the publishers of the market leading Science Focus, Pearson Science New South Wales is written to exactly match the final NSW Syllabus for the Australian Curriculum. It will not only save you time in implementing the NSW Syllabus for the Australian Curriculum, but is the only series that really engages your students. The Pearson Science series includes content and activities presented within the context of the three NSW Syllabus strands: Knowledge and Understanding, Working Scientifically and Learning Across the Curriculum. Content identified as 'Additional' in the NSW syllabus has been clearly differentiated from core content and is carefully placed in the flow of content. Extensive research and the development of a clear and fully accessible approach to content forms how the book is written.
